Campolindo High School

BYOD : Bring Your Own Device

WHY?

We are committed to preparing our students to excel and contribute in a global society. The goal is to enhance student mastery of the content in the classroom. Student technology use supports essential skill areas for our students, including complex communication, new media literacy creativity and self-directed learning. Technology has been evolving at a rapid pace: the district wants students to be prepared for their future educational and career goals

WHAT?

The idea of "1-1 Learning" includes District-Provided Devices and the "Bring Your Own Device" (BYOD) Program. The recommended BYOD minimum system specifications are:

♦ **Connect to the Internet through 5GHz Wi-Fi**
♦ **Have at least 5 hours of battery life**
♦ **Headphones**
♦ **Multimedia creation and editing capabilities**
♦ **7 inch screen**

*NOTE: Smartphones and e-readers do not meet our recommended BYOD Minimum Requirements

HOW?

How are we currently utilizing BYOD at Campolindo?

♦ **Students access, create and use instructional material via Google Apps for Education.**
♦ **Students collaborate and communicate with teacher and other students**
♦ **Students pose questions and initiate their own research**
♦ **Students engage with material**
♦ **Students access online textbooks and novels, which allows them to interact with difficult texts**
