

BYOD Recommended Devices

For use in the Miramonte High School 1:1 Bring-Your-Own-Device (BYOD) Program, bring a device that they can use effectively. Consider user preferences when selecting a device to bring. Some students might work better with a laptop, rather than a tablet, or vice versa.

Device Requirements

- ☐ Connect to internet through Wi-Fi
- ☐ At least 5 hours battery life
- ☐ Headphones
- ☐ Multimedia creation
- ☐ Word processing & editing

Recommended Devices

- ☐ Chromebooks
 - ☐ Dell Chromebook 11 is the most widely used Chromebook model at MHS.
 - ☐ Chromebooks are cost effective and work well with Google Apps for Education suite.
- ☐ iPads
 - ☐ iPad 4s are commonly used at MHS with Freshman 1:1 program.
- ☐ MacBook Air Laptops
 - ☐ A popular device for students participating in the BYOD program.
 - ☐ Features go beyond requirements for BYOD.
- ☐ Microsoft Surface
 - ☐ Another popular device for students participating in the BYOD program.
 - ☐ Features go beyond requirements for BYOD.

Not Recommended

- ☐ Smartphones: Smartphones can be difficult to use for completing school work due to the small screen size and small on-screen keyboard.
- ☐ E-Readers: E-readers do not meet device requirements
- ☐ Old devices: While many families might have old devices at home that could be used by a student, devices over 4 years old could prove to be problematic due no longer supporting software updates and not holding a battery charge.
