## The SAT Program

The SAT (formerly known as the SAT I: Reasoning Test) is a College Board assessment designed to assess student reasoning based on knowledge and skills developed by the students in their course work. The SAT has three components; reading, math and writing. Each component has a 200-800 point value for the maximum composite score of 2400 points. The SAT test has been revised and the redesigned SAT is intended to include:

- More accurate alignment to high school curriculum
- Shift in vocabulary
- Emphasis on use of evidence in answers
- Optional essay
- Removal of penalty for incorrect answers
- Free tutoring through partnership with Khan Academy

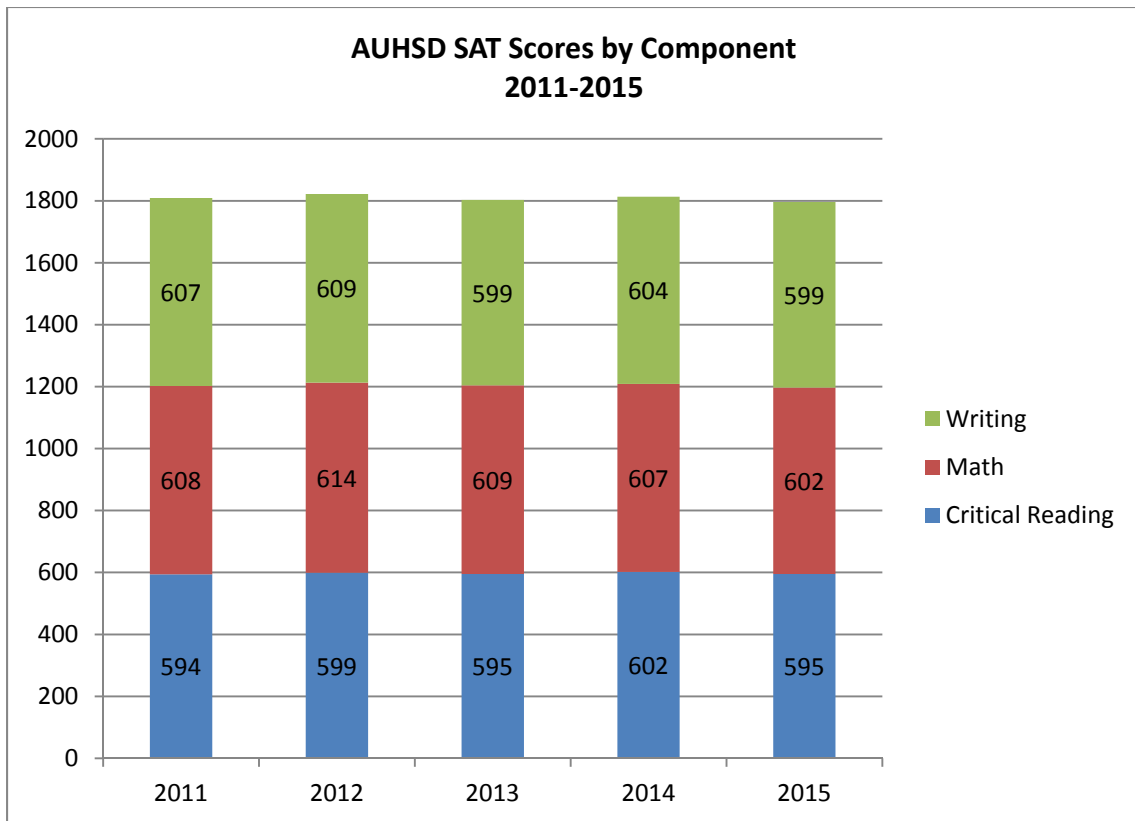

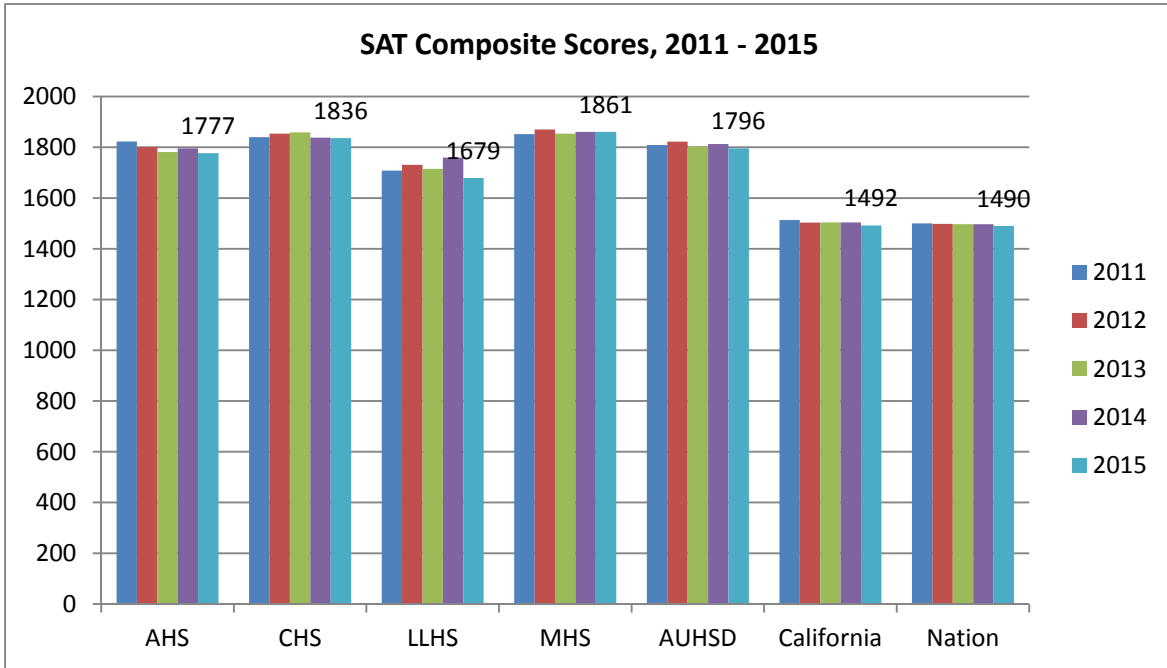

Redesigned SAT will revert to the 1600 point scale as the writing portion becomes optional. First opportunity to take the new SAT will be March 5, 2016.

The SAT Subjects Tests (formerly SAT II: Subject Tests) are a series of one-hour, mostly multiple choice tests designed to measure students' knowledge and skills in a particular academic subject and how well they can apply that knowledge. The SAT Subject Test will remain unchanged. Following are the SAT Subject Test curricular areas:

- **English**
  - Literature
- **History and Social Studies**
  - United States History (formerly American History and Social Studies)
  - World History
- **Mathematics**
  - Mathematics Level 1 (formerly Mathematics IC)
  - Mathematics Level 2 (formerly Mathematics IIC)
- **Science**
  - Biology E/M
  - Chemistry
  - Physics
- **Languages**
  - French and French with Listening
  - German and German with Listening
  - Modern Hebrew
  - Italian
  - Japanese with Listening
  - Korean with Listening
  - Latin
  - Spanish and Spanish with Listening

## The ACT

The ACT is a curriculum and standards-based test designed to assess student readiness for college. The assessment consists of four multiple-choice tests: English, mathematics, reading, and science. The ACT has an optional component that measures writing skills.

The assessment is reviewed and revised on regular basis to adjust to changing standards and curriculum.

### Early Assessment Program (EAP)

The Early Assessment Program (EAP) was developed by the CSU in collaboration with the California Department of Education (CDE) and the State Board of Education and is accepted by participating Community Colleges and California State Universities. All grade eleven students who participated in the English and mathematics CAASPP examination have achieved a performance level that is used for the EAP.

The achievement levels identify a student’s ability to perform college-level work and provide information on skills that can be developed while still enrolled in high school.
