

## AUHSD Digital Citizenship

Lessons & Resources from Common Sense Media <http://bit.ly/31ZZiqI>

### Defining Digital Citizenship

The idea of being a good digital citizen is more than just knowing your way around the Internet. It is about connecting and collaborating in positive ways. When teaching digital citizenship to students, you help create a positive school culture that supports safe and responsible technology use. Our K–12 digital citizenship program includes comprehensive learning resources for students, teachers, and family members.

AUHSD is providing these Digital Citizenship lessons and additional resources for your school site. Digital Citizenship cannot be taught in just one lesson-- therefore sites are provided with lessons and suggested resources to help make Digital Citizenship part of expectations for the school community.
