WIRELESS ACCESS POINTS and LICENSES REQUEST FOR PROPOSAL #2022-100

E-rate Funding Year 2022-23

RFP Questions and Answers dated 12-14-21

NOTICE TO ALL BIDDERS:

This supplemental Question and Response is made a part of the above-entitled specifications for Acalanes Union High School District.

This RFP Questions and Answers shall become a part of the RFP documentation for project named above.

Question and Answer listed below. Answer appears in **red** type:

Q: The RFP is requesting QTY 120 devices and support, with licensing for only QTY 65. Could you confirm – is a portion of this RFP for a renewal of existing Xirrus licensing, and are responders permitted to propose an equivalent solution for only the new equipment/new license portion of the RFP?

A: District is planning to replace 55 older Xirrus Wireless Access Points (WAPs) which have active licenses. These 55 existing licenses will be “repurposed” to support 55 of the new WAPs. The District only needs 65 licenses for 120 new WAPs. Any proposed equivalent solutions must provide the functionality to be equivalent with 120 new working WAPs to be integrated with the existing Xirrus WAP infrastructure.
