Ready to get started? Visit kp.org/newmember.

Choose a doctor who's right for you

Our online doctor profiles let you browse the many excellent doctors and convenient locations in your area, even before you enroll. So you can join knowing you've found a doctor who fits your needs. You're also free to change at any time, for any reason.

Transition your care seamlessly

Easily move prescriptions and find a location that's close to your home, work, or school. Many services are often under one roof, making it easy to see your doctor, get a lab test, and pick up prescriptions – all in one trip.

Get care on your schedule

Need to schedule an appointment? Have a nonurgent question you'd like to email to your doctor's office? Want your prescription refill mailed to your home? After you enroll, register for an online account at kp.org or get our mobile app. Then join the millions of members who easily manage their health online – whenever, wherever.

Want to talk? We're here to help.

You don't have to choose a health plan alone. A Kaiser Permanente enrollment specialist can answer your questions – like where to get care or what extra perks are included. Call **1-800-324-9208** (TTY **711**), Monday through Friday, 7 a.m. to 6 p.m. Pacific time.

Quality care with you at the center

Our physician-led care teams work together to keep you healthy by delivering high-quality, personalized care.

Great care from great doctors

Our doctors come from top medical schools, and many of them teach at world-renowned universities. No matter which personal doctor you choose, you'll be in highly skilled, experienced hands – and your health is their main concern.

As your biggest health advocate, your doctor will coordinate your care journey, and you'll work closely together to make decisions about your health.

Better care with a connected team

Your doctor, nurses, and other specialists are connected to each other, and to you, through your electronic health record. So they know important things about you and your health – like when you're due for a screening and what medications you're taking. That way, you get personalized care that's right for you.

Personalized care for all members

Care at Kaiser Permanente isn't one-size-fits-all. We believe your story, background, and values are as important as your health history. To help deliver care that's sensitive to your culture, ethnicity, and lifestyle, we:

- Strive to hire doctors and staff who speak more than one language
- Offer telephone interpretation services in more than 150 languages
- Train our care teams on how to connect with and care for people of diverse backgrounds
- Improved health outcomes among diverse populations for conditions like high blood pressure, diabetes, and colon cancer¹

Get an idea of what you'll pay before you come in for care with a personalized cost estimate based on your plan details.

Great care, great results

From preventive screenings that keep you healthy to world-class care if you get sick, we've got you covered.

Preventive care to keep you healthy

Preventive care is key to how we practice medicine. It can help you avoid some health issues and catch others before they become serious.

Your electronic health record plays a vital role. It tracks your preventive care services and sends reminders when you're due for your next screening. We'll let you know when to come in so you're free to focus on living your life.

Specialty care when you need it

We're also here for you if you get sick or need specialty care. With one of the largest multispecialty medical groups in the country, we can conveniently connect you with the right specialist. And you don't need referrals for certain specialties, like obstetrics-gynecology, psychiatry, and drug dependency services.

From high-quality maternity care to treatment for cancer, heart problems, and more, you get great doctors, the latest technology, and evidence-based care – all combined to help you recover quickly.

Support for ongoing conditions

If you have a condition like diabetes or heart disease, you're automatically enrolled in a disease management program for personal coaching and support. With a well-rounded approach backed by proven best practices and advanced technology, we'll help you get the care you need to continue living life to the fullest.
